THE VIRGINIA INSURRECTION. We print in another column an article from a Western newspaper, in which the editor shrewdly an I smartly shows up the ludicrous side of this paltry insurrection which has so loudly agitated the Old Dominion, and caused the Governor of the friends. State, like Shakespeare's Falstaff, to head his ragged te iment of F. F. V's, and march to the bloody see ie for the protection and comfort of a brave old town and a United States Arsenal, against seventen white men and five blacks ; and not this brave Wise Govern or alone, but even the high and mighty Jumes the third-President of these United States, who with all his pick of Democratic fawning editors have set up their howl of defiance and bravado worthy of a bigger and better cause.

But the picture has also its serious side-serious at least to poor old John Brown and his rash confeel rates -- who are now undergoing the merest farce of an impartial trial, under the protection (!) of Virginia law and Virginia Courts; and who without doubt will be strung up upon the gallows, as examp'es -nay, rather as martyrs-for they will die, if they must, with the cool self-possession and dignity of martyrdom- to the power of the slaveocrats and the dignity of human law. As a contrast, rather than as an excuse for the

crime of these men, we also give our readers, on the first page of this paper, a brief description of the wrongs -the cruel tortures this same maddened man received at the hands of his present accusers, or their sympathizers, on the plain; of Kansas, during the Border-ruffian war. Let us read it, and see who of us, who of human flesh and blood, would not be stirred up by such these, and incited, as was he, to the er con tinuance of those struggles for freedom and liberty. in which his heart's dearest blood, had been so barbarously spilled by the oppressors. The blood of those murdered martyrs for freedom, still cries from the stained soil of Kansas. It will not suaged by the further murder of this man confederates; will it not rather be augmented? and when in after ages, future generations in that prosperous State shall seek to erect memorial tokens to those who perished early in establishing the freedom and liberty they possess, they shall search deep in the virgin soil to find 'marble pure enough and white enough to celebrate their virtuous lives, their brave deaths, and their heroic deeds, -and they shall not find it!

The detentions at the Stratford Junction is an annovance to passengers to New Haven, which should be remedied, if possible. We understand that that the Hartford and Springfield, and Hartford and New Haven Companies, are willing to delay their afternoon accommodation train one hour for this purpose; and that it only remains for the N. Y. and N H. Company to join in this arrangement to remove the principal cause of complaint from Naugatuck passengers. The Hartford and Providence Company are also willing to detain their afternoon trains from Waterbury, so as to enable the Naugatuck train to stay an hour longer at Winsted than it can under present arrangements, which will be an accommodation to those who have bank er other business in that borough. Such an arrangement would enable the stages here to come from and return to the Litchfield Station, between the passage of the up and down trains. We hope it may be perfected.

The receipts of the State Fair this year amounted to \$10,566,-about \$2,700 more than at Hartford in 1858. The New-Haven papers attribute the increase to the "location" of the Fairthe Hartford papers to the "good weather." We think the Hartford view to be the most correct, and that, in good weather, it will make but little difference in which city the Fair is held, so far as receipts are the object of those who direct its affairs. We hope, however, that the State Agricultural Society will hereafter make it one condition of holding their exhibitions in either Hartford or New Haven, or any other place, that the authorities give satisfactory assurances that the sale of intoxicating drinks, and petty gambling in the public streets, shall be suppressed, within their corporate limits. The unrestricted sale of liquors at New Haven, and the permission of gambling about the Fair grounds, and in the streets, was disgraceful to the authorities of that city,

[Communicated.] RAILROAD MATTERS.

Mr. S. E. Marsh, Civil Engineer, accompanied by several citizens of Litchfield and Warren, made a "trial trip" from Litchfield to South Kent, and from New Milford to Litchfield, on Thursday and Friday of last week, on the proposed routes for the new Railroad. All the lines that have been seriously proposed, towards the west, were passed over. Taking a course west to Bantam Church, thence northerly to a point some twenty rods east of Mr H. S. Griswold's house, and thence to the "Shepaug," and on its banks to the "Dug Way," no serious obstacles were found which would forbid laying the road with an easy grade. The range of hills west of the Shepaug was crossed, nearly west of Peters' Forge. The summit can be easily reached from the east, but there appears to be some difficulty in descending on the west side of the range so as to reach the level of Warren Lake, in descending into the plain beyond. A careful survey may, however, obviate many of the obstacles that presented themselves. After reaching Maryall, our line interrected the line heretofore run by Mr. Nott; and although we endeavored to find a practicable route which should intersect the Housatonic R. R. at South Kent, it is evident that Nott's line must be fullowed to Gaylord's Bridge

On the New Milford route the most serious difficulty was found at "Camps," half a mile east of New Preston. From that point to Peters' Forge, the route is comparatively easy. We examined the proposed line through Davis Hollow, but found many serious objections in the way of extensive cut tings and fillings. The Surveyor thought that whether the Gaylord's Bridge or New Milford route be finally chosen, the line through the "Dug Way" was most feasible. A thorough survey of both lines will speedily be made, with estimates of their respective cost.

We found the people thoroughly aroused to the portance of the project, and avowing themselves ready to spend and be spent in the cause.

Yours, &c., TOWN CLERK. TOBACCO.

Great is Tobacco! Historians have recounted and poets have sung, from time immemorial, the raises of the fragrant weed. If, as Sancho Panza says, "Blessed be the man who invented sleep," how thrice blessed he who discovered the odorous leaf, and bestowed it upon grateful humanity!-From the good old days of England's brave Queen Bess, when the noble Sir Walter, of blessed memory, first discovered to the wits and intellect of that golden era the soothing plant, and over their feasts at the Mermaid Tavern, the fragrant incense rose from the pipes of Shakespeare and Fletcher and the "rare Ben Jonson," down to the present, when the pipe, or the fragrant weed becomes the poor man's solace and the rich man's pleasure, tobacco has reigned unimpeded in the court and in the cabin, in high places and in humble.

And as the smoke-wreaths curl peacefully above our head, soothing the troubled mind, alleviating pain, or subduing the excitement of busy life, our thoughts naturally dwell upon those whose business and whose pleasure it is, to procure us this favorite luxury-and we exclaim, Blessed is the soil that produced it, thrice blessed they who tilled it, and thrice blessed they who manufacture and prepare the grateful pleasure! And thus our attention is turned, and we would turn that of our tobaccogrowing readers, to an advertisement which has lately appeared in our columns, of Mr. D. M. Seymour's Tobacco Ware House at Hartford. The raising of tobacco in Connecticut, has become one of the largest agricultural interests of the State, and is probably the largest crop that is exported. When the Ware House was first started, the price of tobacco, as paid by speculators, did not average, for two years previous, over 8 cents for wrappers, and two to three cents for filters. Sin e the Ware-House has been in operation, the average price by speculators has been over 16 cents for wrappers, and 6 for fillers; years. For of such is the kingdom of heaven. and previous to the Ware-House system, the crop of the State never exceeded 6,000 cans annually; while the past four years it has averaged over 12,000; while also, at the same time, prices of corn were doubled, when the prices of Ohio and N. Y. tobacco leaf have remained stationary.

These are facts; and it is undoubtedly for the interest of our tobacco raising subscribers, (and they are many,) to join the Ware House Association at once, and thus put themselves out of the way and reach of speculators. We do not now argue the harmlessness and innocuousness of tobacco using. We do no believe it altogether; but we do believe that it is one of the sweetest, most luxurious, most comforting of the sensual gratifications of man; and all flesh is human and earthy!

[From the Steuben, N. Y., Courier] A THING TO LAUGH AT.

The fact that seventeen white men and five ne groes could capture a town of two thousand inhab itants, strike terror to the hearts of two great states, and frighten a President out of his boots, i one of the remarkable incidents of this remarkable age. We have a notion that out here in old Steuben, the women of our little village of Bath, would have broomsticked General Brown and Captain Cook, and their twenty followers, into a decent submission to and respect for the law in about twenty minutes. If they unhappily should fail, they would certainly succeed by rallying to their aid the

The tramp of armed men is along every railroad trains are pressed into the service of concap from his uprising locks, and Governor Wise bursts his breeches in the hurry of thrusting his lean legs into them, and War! Rebellion! Insurrection! Blood and Death! goes thundering from Washington to the remotest South. The men of Harner's Ferry caught up their inexpressibles in one hand and their jackets in the other and made a straight wake from the Town, with hair streaming in the wind and shirt tails flying; the women shout-

Well, a thousand United States troops gathered around Harper's Ferry and planted their cannon against the insurgent town, or rather the town cap tured by the insurgents. The Greatest Medical Discovery of the Age-MR. KENNEDY, of Roxbury, has discovered in one of the common Pasture Weeds, a remedy that cures every kind of humor, from the worst scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his pressession over

One to three bottles will cure the worst kind of pimple on the face. Two or three bottles will cure the system of biles. Two bottles is warranted to cure the worst canker

One to two bottles is warranted to cure all humor in the eyes. Two bottles is warranted to cure running of the ears and clotches among the hair.

Four to six bottles is warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin. Two to three bottlesis warranted to cure the worst

Two to three bottles is warranted to cure the most esperate case of rheumatism. Three to four bottles is warranted to cure salt

Five to eight bottles will cure the worst case of scrofula. A benefit is always experienced from the first bot-

quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing in the pasture, along old stone walls, should cure every these, the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs and ands, hums and has about its suiting some cases but not yours. I peddied over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the great est cures ever done in Massachusetts. I give it to children a year old; to old people of sixty. I have some poor, puny, wormy-looking children, whose tlesh was soft and flabby, restored to perfect health

by one bottle. To those who are subject to the sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the function of nature, it will cause very singular feelings, but you must not be alarmed; they always disappear in from four days to a week. There is never a sult from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encon hat ever man listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it. Price \$1 per bottle. Manufactured by DONALD KENNEDY, Roxbury, Mass. John Pitkin, wholesale agent for this State, who supplies this and all other populur medicines at the lowest prices.

ROM Rev. J. D. BERRY, former President Shelby College, Ky. : "After experimenting twenty years, I have found

no Ink superior in every respect to that manufac-tured by Mr. Riverius Marsh, of Litchfield, Conn." From WM. G. PECK, Prof. Mathematics, Columbia College, New York City:
"Riverius Marsh: Dear Sir—I have made use of your 'Writing Fluid' and find it a very superior ar-ticle. If it meets with the success which it deserves.

It will be extensively adopted by all whose business requires a good Writing Fluid." Merchants supplied on short notice, at the lowest cash prices. This Ink is warranted to give entire satisfaction; it flows freely from the pen, and is of

a black, permanent color. Valuable Farm for Sale.
